Introduction

This plan sets outs how the Governing Board of Oxford Grove Primary School will work to promote equality. A person is disabled if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.

This plan addresses our specific duties under the Equality Act 2010. It forms part of our general Equality Scheme. The school has had an Accessibility Plan since 2003 and since that date the school and LA have completed the following work:

- Built a second child’s disabled toilet
- Built a sensory room in the Main School Building
- Ramp added to all entrance points from the playground into school for ease of access for wheelchairs.

The Combined Action and Accessibility Plan attached to this Scheme details further planned improvements.

1. Ethos and Values:

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

(a) He or she has a physical or mental impairment, and

(b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Board. The review process at Oxford Grove has been delegated to the Finance and Premises sub-committee of the Governing Board.

At Oxford Grove Primary School we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

1) The Oxford Grove Primary School Accessibility Plan has been developed and drawn up based upon information supplied by the Local Authority, and consultations with pupils, parents, staff and governors of the school. Other, outside agencies and specialists have also been consulted. The document will be used to advise other school planning documents and policies and will be reported upon annually in respect of progress and outcomes.

2) The Accessibility Plan is structured to complement and support the school’s Equality Objectives, and will similarly be published on the school website. We understand that the Local Authority will monitor the school’s activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.
3) Oxford Grove Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

4) The Oxford Grove Primary School Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable. The Accessibility Plan contains relevant and timely actions to:

- Increase access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
- Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

5) The Oxford Grove Primary School Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

6) Whole school training will recognize the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

7) This Accessibility Plan should be read in conjunction with the following Oxford Grove Primary School policies, strategies and documents:
- Asset Management Plan
- Positive Behaviour and Discipline Policy
- Curriculum Policy
- Disaster Plan
- Equality Plan
- School Prospectus
- Special Educational Needs Policy

8) The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the Governing Board. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.
9) Equality Impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors’ committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.

10) The Accessibility Plan will be published on the school website.

11) The Accessibility Plan will be monitored through the Governor Finance and Premises Committees.

12) The school will work in partnership with the Local Authority in developing and implementing this Accessibility Plan.

13) The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.

Approved  Councillor Linda Thomas  Date 12/04/16

2. Aims and Objectives

Our Aims are:

- Increase access to the curriculum for pupils with a disability,
- Improve and maintain access to the physical environment
- Improve the delivery of written information to pupils and parents

Our objectives are detailed in the Action Plan below

3. Current Practice

We aim to ask about any disability or health condition in early communications with new parents and carers. For parents and carers of children already at the school, we collect information on disability as part of a survey of parents’ views, or in conjunction with our parent conference meeting and data collection information collated termly.

Physical Environment

Disabled pupils participate in extra-curricular activities. Some aspects of extra-curricular activities present particular challenges, for example: lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments, school trips for pupils with medical needs; There are parts of the school where physical features of the school environment hamper access to the whole life of the school;
Curriculum
There are areas of the curriculum to which disabled pupils have limited access. Some areas of the curriculum present particular challenges, for example: PE for pupils with a physical impairment, all curriculum provision for pupils with a visual impairment. Other issues affect the participation of disabled pupils, for example: bullying, peer relationships, policies on the administration of medicines, the provision of personal care, the presence or lack of role models or images of disabled people.

Information
Different forms of communication are made available to enable all disabled pupils to express their views and to hear the views of others. Access to information is planned, with a range of different formats available for disabled pupils, parents and staff.

4. Action Plan
The Action plan will show:

- Clear allocation of lead responsibility;
- Clear allocation of resources;
- An indication of expected outcomes or performance criteria;
- Clear timescales; and
- A specified date and process for review.

5. Access Audit
The school is a single storey building with wide corridors and several access points from outside. Many of our school staff are trained in the operation of the “Hoist”. Training is reviewed annually.

All entrances to the school are either flat or ramped and all have wide doors fitted. The main entrance features a secure lobby and has been fitted with a push button electrically operated external door and a low reception hatch, both of these being fully accessible to wheelchair users. There are disabled toilet facilities available in both the Key Stage 1 and Key Stage 2 areas of the school. We also have a gender natural toilet located in the main building.

The school has internal emergency signage and escape routes are clearly marked, this includes signage which indicates which escape routes are appropriate for wheelchair users.

Possible areas to be improved within the limitations of this building are:
The outside access to the field from the Key Stage 2 playground.

The widening of the school gates into the school yard to enable easier entry and exit from the school grounds at the start and end of the school day.

6. Management, coordination and implementation

- We will consult with experts when new situations regarding pupils with disabilities are experienced.
- The Governors and Senior Leadership Team will work closely with the Local Authority.

Access to Curriculum

To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability.
